

### **Tenure-Track Assistant Professor or Associate Professor in Architectural Design**

The Department of Architecture at Texas A&M University invites applications for one or more tenure-track faculty positions in architectural design at the rank of Assistant Professor or Associate Professor for Fall 2018.

Responsibilities will include instructing students in design studios as well as lecture and seminar courses; mentoring students for masters' final studies, masters' theses and doctoral dissertations; initiating and conducting a nationally recognized program of research, scholarly inquiry, or creative work; and contributing to faculty governance and administration. Appointments are nine months, renewable annually. Salary will be commensurate with experience and qualifications.

In addition to a terminal degree in architecture, successful candidates must possess credentials of professional experience in architectural design; a record of recognized research, scholarly, and creative work, such as built work, design awards, grants, publications and exhibitions; and experience and accomplishment in teaching at the undergraduate or post-graduate level. Applicants who are doctoral candidates may be considered if the candidate will be awarded the doctorate by September 2018.

One of four departments within the College of Architecture, the Department of Architecture is committed to design inquiry to support the architectural professions as central to its mission. The faculty of 59 members provide instruction leading to undergraduate (B.E.D.) and graduate degrees (M Arch, MS Arch, and PhD Arch) to an enrolled student body of 575. Further information about the Department is available at:

Texas A&M University is a Tier 1, land, sea, and space grant research university with a mission of teaching, research, and service. The Department of Architecture is part of the College of Architecture along with the Departments of Construction Science, Landscape Architecture and Urban Planning, and Visualization. The College is devoted to teaching, research, and service related to the natural, built, and virtual environments, and encourages interdisciplinary cooperation among administrators, departments, faculty, and students. Five research centers, two research institutes, several laboratories and advanced fabrication facilities support trans-disciplinary projects of benefit to the academic and public sectors.

Review of applicants will begin 08 January 2018. Interested individuals should provide a letter of application, curriculum vitae, portfolio of professional and creative work, portfolio of teaching accomplishments, and three letters of recommendation to
